**Signature of the participant**

**ABOUT THE ORGANIZERS**

**Central University of Jharkhand**

The Central University of Jharkhand was established through the Central University Act, 2009. The University started with a vision to specially focus on relevant present age educational drives with an emphasis on research in cutting edge technologies. It offers Under Graduates, Post Graduates and Ph.D. programmes in different Schools/ Departments of studies. The University is open to new ideas in course curricula and research proposals, collaboration, interaction and capacity building programmes. The university presently has 9 schools of studies catering to 24 departments such as Education, English Studies, Life Sciences, Chemistry, Physics, and Environmental Sciences etc. The University has adopted choice based credit system whereby the interdisciplinary interaction has been given importance in teaching and research.

**Department of Education**

The Department of Education was opened by the university in the academic year 2013-14 by offering Four Years Integrated B.A. B.Ed. and B.Sc. B.Ed. programmes. Later on the department also offered 2 Year B.Ed. programme in the year 2015-16. Presently, the Department of Education is functioning under the School of Education. During the Academic Year 2018-19, department is offering research programme of Ph. D. in Education.

## ABOUT THE SEMINAR

To be born in human society means to be human, not animal. To be human means to be civilized, to be cultured, and to be educated. To be educated means to be sweet, to be balanced, and to be enlightened. Education plays a vital role in the life of human being. It will be hypothetical to think about the proper survival of any human being without education. With the help of education one can use maximum of his inner potentialities. It leads the human beings for perfection. Education allows the human being to develop his skills and expertise to provide the basic needs for him i.e. food, clothe and shelter. Education is the basis for a successfully evolving humanity. Besides providing literacy to an individual, education also helps for his proper adjustment in the society. It tells him how to talk with others, how to respect his elders, and how to behave with his peer members etc. In other words we can say that it makes the individual fully socialized.

The success of any education system depends on the quality of teachers, which, in turn, depends on the effective teaching / learning process. Teachers' role is of vital significance for the development of society and appropriate changes in the society. Thus, the quality of higher education depends upon quality of those who impart it. Teachers are the most important components of any educational system. Teachers play most crucial role in the development of the education system as a whole and also in imparting and maintaining the standards of higher education. Thus, teachers play critical role in quality education and in shaping the future and destiny of a nation. Teachers teach the ways of life, channelize youth power and mould their character. In a real sense, the teachers are the backbone of the nation.
