on

India's Journey towards Viksit Bharat 2047: Exploring Synergies between Social Equity, Economic Growth and Global Interdependence for A Sustainable and Resilient Future

Organized by

Department of Commerce and Financial Studies

School of Management Sciences

Date: 21-22 March, 2025 (2 days)

Venue

Department of Commerce and Financial Studies (DCFS)

Central University of Jharkhand

Cheri, Manatu, Ranchi-835222

About the University

The Central University of Jharkhand (CUJ) was established through the Central Universities Act, of 2009. The University started with a vision to specifically focus on relevant present-age educational drives with an emphasis on research. It offers Undergraduate, Postgraduate, and Doctoral programs in Schools/Departments. The members of the Faculty at CUJ have been awarded National and International Fellowships, project funding, and recognition. They are constantly contributing to the Government Sector and public and Private Sector organizations through teaching and consulting. The students have also won accolades in national-level academics and extramural activities. The permanent campus, 510 acres of lush green environment, is located at Cheri-Manatu, in Ranchi.

About the Department (DCFS)

The Department of Commerce and Financial Studies (DCFS) was formally set up in the year 2019 under the School of Management Sciences (SMS). It offers Ph.D. programme in Commerce, Two years post graduate Programme (M.Com.), Integrated B.Com-M.Com. as per NEP. The faculty members and scholars have regularly contributed their cutting edge research work in reputed Scopus/WoS/ABDC/UGC-CARE indexed Journals and conferences organized by institutions of repute such as IIMs, NITs, Central Universities, etc. During last five years, faculties and scholars of DCFS have published around 45 papers. The department organizes workshops, conference, seminars and FDPs on a regular basis to enhance the academic and professional growth of faculties, scholars and professionals.

About the Conference

With major issues such as social injustice, economic instability, and climate change, the world is at a crossroads. To address these challenges, we must fundamentally rethink our approach to growth and development. Previously preoccupied on short-term gains, the approach to develop has to change in order to become a force for sustainable growth.

India now stands at a pivotal juncture in its developmental journey, aspiring to become a 'Viksit Bharat' (Developed India) by 2047. This ambitious vision requires a robust and inclusive system that can catalyse economic growth, create opportunities, and ensure the well-being of all citizens. The centennial of India's independence in 2047 is a landmark event, Calling/Demanding/necessitating for a detailed plan for the nation's future. The vision of 'Viksit Bharat' encompasses social justice, inclusive growth, and a position of global prominence.

Against this backdrop, the Department of Commerce and Financial Studies (DCFS) at the Central University of Jharkhand is organizing a two-day International Conference on the theme, "India's Journey towards Viksit Bharat 2047: Exploring Synergies between Social Equity, Economic Growth, and Global Interdependence for a Sustainable and Resilient Future."

The conference will address pertinent issues in the context of a self-reliant India. It will offer actionable insights through deliberations by eminent academicians and industry practitioners. These suggestions will not only enrich academia and research but also serve as valuable inputs for policymakers.

The primary goal of the conference is to discuss the dynamics of economic growth, social equality, and global interdependence in ensuring the realization of the Viksit Bharat vision by 2047. The conference will explore critical aspects driving environmental sustainability, social equity, and economic prosperity. Key themes include challenges and opportunities in India's financial landscape, sustainable finance, green growth, infrastructure development, financial inclusion and empowerment, global economic trends, and the role of AI in the financial sector. Addressing these areas is crucial for achieving long-term sustainable growth and realizing the ambitious goal of 'Viksit Bharat' by 2047.

Additionally, the conference will examine issues such as digital divide, healthcare and well-being, financial exclusion, rural infrastructure development, social security systems, technology for growth, global competitiveness, and green growth strategies. By bringing together policymakers, financial experts, industry leaders, and academicians, this event aims to foster comprehensive dialogue on the challenges and opportunities that lie ahead. It will explore how to leverage the financial system to bridge gaps in financial inclusion, promote sustainable investments, and create a more equitable and prosperous India.

The conference will feature a blend of plenary sessions, panel discussions, and breakout sessions to facilitate in-depth discussions and knowledge sharing.

Conference Objectives

- To encourage interdisciplinary discussion on the crucial interactions among global interdependence, economic progress, and social equality within the framework of India's development.
- To determine the most important policy changes and tactics needed to realize Viksit Bharat by 2047.
- To offer a forum for the exchange of ideas, best practices, and experiences amongst scholars, legislators, business executives, and civil society groups.
- To produce practical suggestions that stakeholders from many industries might implement to support India's development.

Call For Papers

Researchers, academicians, and practitioners are invited to submit research papers for presentations on relevant topics within the conference themes. Selected papers will be considered for publication in a peer-reviewed journal/Edited Book.

Target Participants

Academic Leaders, Academicians and researchers, Financial sector professionals, Policymakers and government officials, Business leaders and entrepreneurs, Students and young professionals.

Conference Tracks

Driving Sustainable Economic Growth

- Innovation & Technology
